PLAYING FOR WEDDINGS IS WITHIN YOUR REACH

Have you been asked to play for a wedding but you weren't confident in how to prepare, what to charge or even the repertoire needed?

Or perhaps you're interested in making extra money playing for weddings, but you aren't sure where to start.

- Need a repertoire that's wedding—ready with short notice?
- Not sure what to charge to play for a wedding or how to bring up the subject of price when asked?
- Need professional guidance about contracts, song selection, negotiating price and more?
- Not sure how many songs you need to have ready?
- What about knowing exactly when to play and for how long?

I can help you with all this and more!

BENEFIT FROM MY VAST EXPERIENCE

I've played for dozens of weddings and encountered just about every situation imaginable (including a bride who refused to come down the aisle!).

There are many things to know about playing for a wedding besides just the music. There's specific etiquette and protocol to follow that many times the bride isn't even aware of. For example, did you know that the bride's mother is the last to be seated before the procession begins? The wedding pianist must know these things to be fully prepared for the event.

That's why I'm excited about introducing my newest offering, **The Complete Wedding Music Essentials**. You'll have all the above questions answered and more you hadn't even thought of!

This Complete Wedding Music Essentials is a comprehensive collection of all my years of experience put together. You'll be prepared not only for the music portion of playing for a wedding, but the professional and business side as well. And you'll answer the "rates question" with confidence, knowing you're worth it!

WHAT YOU GET

Insider Tips

My complete list of Insider Tips that you can use as a checklist so you'll look like a pro, even if it's your first wedding to play (worth their weight in gold!). Some tips include:

- How to organize your music so the ceremony runs smoothly
- Specific questions to ask the bride so there won't be any surprises and you're fully prepared
- The **FIRST THING** you should say when you're asked to play for a wedding so you aren't stuck with the awkward task of bringing up your rates later
- When and how to follow up with the bride so she knows you're on top of everything musical for her special day
- How to sound professional, even when you're dealing with family and friends

Set your Rates

Set your rates with confidence. Know how and when to get paid.

Did you know that venues, caterers, photographers and other professional services charge more (sometimes triple their regular rates!) for weddings? Why should you not get paid what you're worth for one of the main features of the ceremony?

Communications

Communication is key to every client relationship.

- Know how to keep every communication professional yet friendly
- Receive example email follow-up communications and exactly when to send them
- You'll get templates for contracts, worksheets, brochures and more — completely customizable so you don't have to start from scratch — such an amazing time saver! All the heavy lifting has already been done for you!
- And much more!
